EXECUTIVE SUMMARY

Computer Science and Engineering graduate with hands on experience in software, game dev and full stack development, with applied machine learning shown through an undergraduate thesis on multimodal emotion detection.

EDUCATION

B.Sc. in Computer Science & Engineering 2025
Sonargaon University, Dhaka (CGPA: 3.78/4.00)
Undergraduate Thesis (defended): "Towards Real-Time Emotion Analytics: Integrating Facial Landmarks and Speech Prosody"

WORK EXPERIENCE

- **Internship at NRBC Bank PLC** June 2025 – September 2025
  - Assisted with account opening, filing, cheque book & debit card delivery
  - Provided customer service, business client handling, form fill-ups, and daily balancing
  - Handled document inward/outward and basic banking operations
  - Learned workflows related to RTGS, BEFTN, FDR, and branch processes
  - Assisted in the EGP department as well as field visits with senior recovery officers
- **Graphics Designer (Freelance)** January 2022 – December 2022
  - Directed and composited videos using Adobe Premier Pro
  - Created & designed business proposals using Photoshop & Word
  - Added motion graphics and 3D visual effects to video projects

RESEARCH & PROJECT EXPERIENCE

- **Real-Time Multimodal Emotion Analytics | Python, TensorFlow/Keras, OpenCV, MediaPipe, librosa**
  Undergraduate thesis: bimodal emotion recognition (facial + speech) with a custom 5,500-clip video dataset, ~82% speech (LSTM) and ~68% facial (CNN) accuracy, fused via confidence-based late fusion. Modernized rebuild with MobileNetV2 + BiLSTM. **Source**

- **DecaDome — 2D Arena Survival Shooter | Python, Pygame, FastAPI, Django, PostgreSQL, Redis, Docker**
  Shipped a downloadable Pygame arena shooter with a live leaderboard, deploying the FastAPI score API alongside a Django accounts/admin app on Render, PostgreSQL on Neon, and a Cloudflare Pages landing page. Redis-backed rankings, pytest + flake8, CI via GitHub Actions. **Download Link**

- **Campfire — Real-Time Chat App | React, Node.js, Express, Socket.io, MongoDB, Docker**
  Full-stack chat with JWT/bcrypt auth, authenticated WebSocket handshakes, server-side room membership checks, and message validation; Dockerized, CI via GitHub Actions. **Live Link**

TECHNICAL & CORE COMPETENCIES

- **Fundamentals:** DSA, OOP, System Design Basics, OS, DBMS, Networks, Secure Coding Practices (OWASP)
- **Languages:** Python, Rust, C/C++, TypeScript, JavaScript, Lua, Assembly
- **Frontend:** React.js, Next.js Tailwind CSS, Framer Motion, HTML5, CSS3
- **Backend & Security:** Node.js (Express), FastAPI, Django, REST APIs, JWT, API-key auth, Input Validation, Password Hashing (PBKDF2, bcrypt), HTTPS/TLS, HSTS, CORS, Content Security Policy, CSRF Protection, XSS Prevention, SQL Injection Prevention
- **Databases & Caching:** PostgreSQL, MongoDB, Redis, SQL
- **AI & Machine Learning:** PyTorch, TensorFlow, Scikit-learn, Hugging Face (Transformers)
- **Data & Domain Libraries:** OpenCV (Vision), Librosa (Audio), NumPy, Pandas, Matplotlib
- **Tools & DevOps:** Git, GitHub, GitHub Actions, Docker, Linux (basics), Postman,, Pygame, Love2d, Render, Neon, Cloudflare
- **Professional Skills:** High Adaptability, Problem Solving & Analytical Reasoning**,** Excellent Presentation Skills & Client Management under Pressure**,** Good Communication, Teamwork & Leadership Capabilities
- **Language Skills:** Professional Proficiency in English

EXTRACURRICULAR ACTIVITIES

- Volunteer of SU CSE Fest 2025: Organized & managed a segment of the program consisting 50+ students
- ICPC participant, member of SU programming club
